

The 'Food First' Approach

1

Fortified Milk

1 Pint of Full cream milk + 4 heaped tablespoons of Dried milk powder = Fortified milk

The 'Food First' approach is at its basis a daily consumption of:

- 1 pint of fortified milk
- 2-3 nourishing snacks or drinks
- 3 fortified meals

Fortifying is when small amounts of everyday foods, such as butter, milk powder or cream are added to a food or meal to increase the nutritional content without having to significantly increase the portion size. This makes every mouthful more nourishing

3

Fortified Meals

High Energy foods are foods high in Fat or Sugar

Fortify meals by adding food-stuffs that are high in Protein and Energy

2-3

Snacks & Drinks
